

LONG-RANGE NEEDS ASSESSMENT

Long-range needs assessment enables the school district to analyze assessment data, get feedback from the community about its expectation of students and determine how well students are meeting student learning goals. The board will conduct ongoing and in-depth needs assessment, soliciting information from business, labor, industry, higher education and community members, regarding their expectations for adequate student preparation.

In conjunction with the in-depth needs assessment of the school district, the board will authorize the appointment of a committee, representing administrators, employees, parents, students and community members, to make recommendations and assist the board in determining the priorities of the school district in addition to the basic skills areas of the education program.

Opportunities for local feedback on an ongoing basis will be provided through the following: annual parent survey, advisory committees, the district website, and open meetings of the Board of Education. In addition, staff will have opportunities to provide ongoing feedback through scheduled Professional Development sessions and regular building faculty meetings.

It is the responsibility of the Superintendent to ensure the school district community is informed of students' progress on state and locally determined indicators. The Superintendent will report annually to the Board about the means used to keep the community informed.

As a result of the work of the Board and the Comprehensive School Improvement/Equity Advisory Council, the Board will determine major educational needs and rank them in priority order; develop long-range goals and plans to meet the educational needs; establish and implement short-range and intermediate-range plans to meet the goals and to attain the desired levels of student performance; evaluate progress toward meeting the goals and maintain a record of progress under the plan that includes reports of student performance and results of school improvement projects; and annually report the school district's progress made under the plan to the committee, community and Iowa Department of Education.
