

POLICY: 400.15

EYE SAFETY FOR PERSONNEL

Eye safety practices shall be adhered to by District employees. Employees shall wear industrial quality eye-protection devices at all times while participating in or while in a room or enclosed area where others are participating in an activity which may subject the employee to the risk or hazard of eye injury from the materials or processes used (eg. in vocational or industrial technology rooms, in science laboratories).

Employees engaged in maintenance work shall wear eye protection devices when engaged in maintenance work which could possibly cause eye damage. This policy shall apply to school visitors.

The District shall furnish personnel and visitors with industrial quality eye protective devices.
