

POLICY: 400.8

EMPLOYEE PHYSICAL EXAMINATIONS

Good health is important to job performance. Employees shall present evidence of good health, in the form of a physical examination report, prior to their employment with the school district.

School bus drivers will present evidence of good health every other year in the form of a physical examination report unless otherwise required by law or medical opinion. Employees whose physical or mental health, in the judgement of the administration, may be in doubt shall submit to additional examinations when requested to do so at the expense of the school district.

The cost of the initial examination will be paid by the employee. The district will provide the standard examination form to be completed by the personal physician of the employee. Employees identified as having reasonable anticipated contact with blood or infectious materials will receive the Hepatitis B vaccine or sign a written waiver stating that they will not take the vaccine.

It is the responsibility of the superintendent to write an exposure control plan to eliminate or minimize district occupational exposure to blood borne pathogens. The plan for designated employees will include, but not be limited to, scope and application, definitions, exposure control, methods of compliance, Hepatitis B vaccination and post-exposure evaluation and follow-up, communication of hazards to employees, and record keeping.

The requirements stated in the master contract between employees in a certified collective bargaining unit and the Board regarding physical examinations of such employees will be followed.
