STUDENT RECORDS AND DIRECTORY INFORMATION

The board recognizes the importance of maintaining student records and preserving their confidentiality. Student records containing personally identifiable information are kept confidential at collection, storage, disclosure and destruction stages.

Student records are an essential part of the educational process. Information about students, which is required by law or considered necessary to document performance on District expectations, shall be maintained in student records for all District students. Student records are under the supervision of the professional and non-professional certificated staff.

Information collected shall be as accurate as feasibly possible and be recorded in either a student's cumulative record and/or permanent record.

Collection, dissemination, and retention of information in student records shall be controlled by specific procedures to protect individual rights and preserve the confidential nature of the records. Personnel who collect or use such information shall receive instruction regarding confidentiality of student information contained in student records.

Parents and eligible students will have access to the student’s records during the regular business hours of the school district. An eligible student is a student who has reached eighteen years of age or is attending an institution of postsecondary education at the post high school level.

Parents of an eligible student are provided access to the student records only with the written permission of the eligible student unless the eligible student is defined as a dependent by the Internal Revenue Code. In that case, the parents may be provided access without the written permission of the student. A representative of the parents or eligible student, who has received written permission from the parents or eligible student, may inspect and review a special education student’s records. Parents, other than parents of an eligible student, may be denied access to a student's records if the school district has a court order stating such or when the district has been advised under the appropriate laws that the parents may not access the student records. Parents may inspect an instrument used for the purpose of collection of student personal information prior to the instrument’s use.

A student record may contain information on more than one student. Parents will have the right to access the information relating to their student or to be informed of the information. Eligible students will also have the right to access the information relating to themselves, or be informed of the information.

Parents and eligible students will have a right to access the student’s records upon request without
unnecessary delay and in no instance more than forty-five calendar days after the request is made. Parents, an
eligible student or an authorized representative of the parents will have the right to access the student’s records
prior to an Individualized Education Program (IEP) meeting or hearing.

Copies of student records will be provided if failure to do so would effectively prevent the parents or
student from exercising the right to access the student records. Fees for copies of the records are waived if it
would prevent the parents or student from accessing the records. A fee may not be charged to search or retrieve
information from student records.

Upon the request of parents or an eligible student, the school district will provide an explanation and
interpretation of the student records and a list of the types and locations of education records collected,
maintained or used by the school district.

If the parents or an eligible student believes the information in the student records is inaccurate,
misleading or violates the privacy of other rights of the student, the parents or an eligible student may request that
the school district amend the student records. The school district will decide whether to amend the student
records within a reasonable time after receipt of the request. If the school district determines an amendment is
made to the student record, the school district will make the amendment and inform the parents or the eligible
student of the decision in writing.

If the school district determines that amendment of the student’s record is not appropriate, it will inform the
parents or the eligible student of their right to a hearing before the hearing officer provided by the school district.

If the parents’ and the eligible student’s request to amend the student record is further denied following the
hearing, the parents or the eligible student are informed that they have a right to place an explanatory letter in the
student record commenting on the school district’s decision or setting forth the reasoning for disagreeing with the
school district. Additions to the student’s records will become a part of the student record and be maintained like
other student records. If the school district discloses the student records, the explanation by the parents will also
be disclosed.

Student records may be disclosed in limited circumstances without parental or eligible student’s written
permission. This disclosure is made on the condition that the student record will not be disclosed to a third party
without the written permission of the parents or the eligible student. This disclosure may be made to the following
individuals or under the following circumstances:

- to school officials within the school district and AEA personnel whom the superintendent has determined
to have a legitimate educational interest, including, but not limited to, board members, employees, school
attorney, auditor, health professionals, and individuals serving on official school committees.

- to officials of another school district in which the student wishes to enroll, provided the other school district notifies the parents the student records are being sent and the parents have an opportunity to receive a copy of the records and challenge the contents of the records unless the annual notification includes a provision that records will automatically be transferred to new school districts;
- to the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education or state and local educational authorities.
- in connection with financial aid for which the student has applied or which the student has received if the information is necessary to receive the financial aid;
- to organizations conducting educational studies and the study does not release personally identifiable information;
- to accrediting organizations.
- to parents of a dependent student as defined in the Internal Revenue Code;
- to comply with a court order or judicially issued subpoena;
- in connection with a health or safety emergency; or,
- as directory information.

The superintendent will keep a list of the individuals and their positions who are authorized to view a special education student’s records without the permission of the parents or the eligible student. Individuals not listed are not allowed access without parental or an eligible student’s written permission. This list must be current and available for public inspection and updated as changes occur.

The superintendent will also keep a list of individuals, agencies and organizations which have requested or obtained access to a student’s records, the date access was given and their legitimate educational interest or purpose for which they were authorized to view the records. The superintendent, however, does not need to keep a list of the parents, authorized educational employees, officers and agencies of the school district who have accessed the student’s records. This list for a student record may be accessed by the parents, the eligible student and the custodian of student records.

Permanent student records, including a student’s name, address, phone number, grades, attendance record, classes attended, grade level completed and year completed may be maintained without time limitation. Permanent student records will be kept in a fire-safe vault.

When personally identifiable information, other than permanent student records, no longer needs to be
maintained by the school district to provide educational services to a special education student, the parents or eligible student are notified. This notice is normally given after a student graduates or otherwise leaves the school district. If the parents or eligible student request that the personally identifiable information be destroyed, the school district will destroy the records. Prior to the destruction of the records, the school district must inform the parents or eligible student the records may be needed by the parents or eligible student for social security benefits or other purposes. In the absence of parents or an eligible student’s request to destroy the records, the school district must maintain the records for at least three years after an individual is determined to be no longer eligible for special education.

The school district will cooperate with the juvenile justice system in sharing information contained in permanent student records regarding students who have become involved with the juvenile justice system. The school district will enter into an interagency agreement with the juvenile justice agency (agencies) involved.

The school district will provide training or instruction to employees about parents’ and eligible students’ rights under this policy. Employees will also be informed about the procedures for carrying out this policy. It is the responsibility of the superintendent to annually notify parents and eligible students of their right to inspect and review the student’s records.

The notice is given in a parents’ or eligible student’s native language. Should the school district collect personal information from students for the purpose of marketing or selling that information, the school district will annually notify parents of such activity.

The notice will include a statement that the parents have a right to file a complaint alleging the school district failed to comply with this policy. Complaints are forwarded to Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, Washington, DC 20202-4605.
