

POLICY: 503.10

EYE SAFETY FOR STUDENTS

Eye safety practices shall be adhered to by District students. Students shall wear industrial quality eye-protection devices at all times while participating in or while in a room or enclosed area where others are participating in an activity which may subject the student to the risk or hazard of eye injury from the materials or processes used (eg. in vocational or industrial technology rooms, in science laboratories).

The District shall furnish students with industrial quality eye protective devices.
