

POLICY: 603.4

HOMEWORK

Homework shall be designed to assist students to work independently, improve skills that have been taught, and complete tasks/activities essential for instruction. Teachers shall base the amount of homework on the needs of each student. The frequency and amount of homework shall be realistic and appropriate in order that students can maintain a balance between school and their personal/family life. Feedback to students on completed homework shall be timely according to the amount of and type of assigned homework.
