

POLICY: 711.5

BUS SERVICE FOR SPECIAL EDUCATION

Bus service for District special education students will be provided according to state and federal laws.

When transportation by a school bus is impractical, the Board may require that the family provide transportation to the school.

When that occurs, the family will be reimbursed as provided by law. Any special transportation arrangements are to be clearly identified in the student's individual education program (IEP).

Required unique transportation according to the student's individualized education plan to and from the student's home to the special education program shall be the expense of the District whether provided by the District or by the parent.
