

POLICY: 800.12

FIRE, TORNADO, AND DISASTER DRILLS

The District will maintain a warning system designed to inform students, employees, and visitors of an emergency. This system will be maintained on a regular basis.

Students will be informed of these plans and appropriate instructions will be given annually by the licensed employees in the building.

Fire, tornado, and disaster drills shall be conducted according to statute during each school year. Related safety standards will be officially checked each year to see that District facilities are meeting the standards.
