

POLICY: 905

RELATIONS WITH THE RELIGIOUS COMMUNITY

Maintaining positive relations with the religious community is desired. Wednesday evening is recognized as a time for church activities. School officials will make a sincere effort to schedule school-related activities that the District has control over, so that the activities will not conflict with Wednesday evening church activities.

Students, who are members of religious faiths that observe Holy days that are not school holidays may, upon written request of the parents/guardians, be excused from school to observe such holy days. However, the student's absence shall comply with the District's attendance policy and procedures.
